## EDUCATION

### 2014 - Present

#### University of Kent |

#### BSc - Computer Science with YII

Finishing my final year at University and predicted First Class (transcripts available on request)

### 2012-2014 Chatham and Clarendon Grammar School

A-Level education.  
Left with A\*, A, B, C

## EXPERIENCE

### 2016-2017 Java Software Developer | Kent Police

Year in industry where I gained professional programming experience using Java Server Faces with an MVC web framework. Required to work with highly sensitive information and follow strict security procedures. Working as a member of an agile team, I was tasked with creating applications which interfaced with databases of my own design; all to be used by officers on both desktop and mobile devices.

### 2015-Summer Tesco Metro Store Assistant

Working a variety of roles, developed my customer relations skills when confronted with hostile situations. Trusted with money counts and adapted quickly to new technology requirements.
